

Junior Technical Assistant – Analytical Development

Date posted: March 15, 2018

Location: Vienna, Austria

Position Summary:

Technical Assistant with a strong background in immunological assays to join our highly motivated and dedicated team at Hookipa Biotech AG, a Vienna-based biotechnology company developing novel recombinant viral vector vaccines against infectious diseases and cancer.

Your Responsibilities:

- Development, optimization and performance of immunological assays (such as multicolor flow cytometry and virus titer determination by double immunofluorescence focus formation assay) under BSL-2 conditions to support development of vaccine products
- Data analysis and evaluation, monitoring of analytical assay performance (trending), troubleshooting
- Mastering of routine assays with high sample throughput
- Maintenance of laboratory equipment
- Preparation and review of relevant documentation for all work processes according to GMP standards

Your Requirements

- MTA, BTA, Dipl. Ing. (FH) or B.Sc. in relevant field (e.g. Biology, Microbiology, Biotechnology)
- At least 1 year of experience working in biopharmaceutical or biotechnology industry
- Experience with immunological, virological or molecular biological techniques
- Experience with Quality systems (e.g. GMP; GLP) is an advantage
- Independent, well-organized and proactive work style
- Open-minded and communicative team-player
- Able to multi-task and work under time pressure on multiple projects
- Fluent in written and oral English and German

What we offer:

- Strong team with dedicated and passionate scientists
- State of the art infrastructure
- An excellent working atmosphere
- Working in a multinational and multicultural environment

Minimum monthly gross salary from EUR 1.950,- ; depending on experience and qualification salary can be negotiated. Starting date: As soon as possible.
