

Technical Assistant – Downstream Process Development

Date posted: August 07, 2018

Location: Vienna, Austria

Position Summary:

We are looking for a highly motivated technical assistant to join our process development team at Hookipa Biotech, a Vienna-based biotechnology company developing viral vectors for use as vaccines and immunotherapies against infectious diseases and cancer.

In this permanent position (full-time) you will be working on the development of purification processes for pipeline products (improvement of process steps, implementation of new technologies, product characterization using analytical methods, scale-up, tech-transfer/manufacturing activities,...).

Main Responsibilities:

- Plan, coordinate, execute and evaluate various experiments (mainly chromatography and filtration-based methods)
- Routinely prepare and perform lab scale R&D purification runs
- Ensure that documentations are accurate and meet the requirements of the company, assist in the preparation and optimization of various technical documents
- Prepare data compilations, presentations and technical reports and actively communicate and present results in regular team meetings
- Manage and take responsibility for various lab-associated tasks

Qualifications:

- Bachelor's or Master's degree in biotechnology or related (ideally with focus on bioprocess engineering)
- Relevant work experience in the biotechnology industry is desirable, but not mandatory
- Basic knowledge of purification techniques for biological products is expected
- Experience with chromatography systems (especially ÄKTA systems) and filtration technologies is beneficial
- Well-organized, accurate, technically skilled, open minded and communicative team player
- Fluent in German and English

What we offer:

- Strong team with dedicated and passionate scientists
- State of the art infrastructure
- An excellent working atmosphere
- Opportunities for Personal development
- Working in a multinational and multicultural environment

Minimum monthly gross salary from EUR 2.300,-; depending on experience and qualification salary can be negotiated. Starting date: As soon as possible
